Resolution on authorisation for the board of directors to resolve on new issue of shares with payment in kind (the Deliver Holdings LLC merger) (item 7)

Background

The Company's subsidiaries Pegasus Corp One and Pegasus Corp Two (the "**Subsidiaries**") have entered into a merger agreement with Deliver Holdings LLC (the "**Merger Agreement**"), pursuant to which the Company will become the indirect shareholder of all shares in Deliver Holdings LLC (which owns the PathWire group). Part of the consideration under the Merger Agreement consists of a claim on the Subsidiaries of USD 1 billion (the "**Receivable**"), with the right for the direct and indirect shareholders in Deliver Holdings LLC to transfer the Receivable to the Company as payment-in-kind.

Proposal

The board of directors proposes that the meeting authorizes the board of directors to, on one or several occasions, until the next annual general meeting, resolve on new issues of up to 51,000,000 shares.

Subscription and subscription period

The right to subscribe to the new shares shall accrue to Deliver Parent L.P. and the other direct and indirect shareholders of Deliver Holdings LLC. The new shares shall be subscribed to at the latest by the next annual general meeting of the Company.

The reason for the authorisation is for the Company to fulfil its undertakings under the Merger Agreement.

Payment

The subscribers shall contribute the Receivable (or part thereof equivalent to the subscribed for shares) as payment-in-kind for the shares.

Authorisations

The board of directors is authorised to make the minor changes required for registration with the Swedish Companies Registration Office.

Proposal on authorisation for the board of Directors to resolve on new issues of shares (item 8)

The board of directors proposes that the meeting authorizes the board of directors to, on one or several occasions, until the next annual general meeting, resolve on new issues of shares to be paid in cash, in kind or by way of set-off or otherwise on terms and conditions and that such new issue can be performed with deviation from the shareholders' preferential rights. The issues are to be performed on market conditions, taking into account any discount on market terms. The reason for the authorization and the reason for the possible deviation from the shareholders' preferential rights is to enable capital raisings for the acquisition of companies, or parts of companies, and for the operations of the company. The board of directors is entitled to resolve on share issues causing an increase of the company's share capital of at most 10 percent of the company's registered share capital at the time the board of directors first utilizes the authorization.

Proposal for resolution regarding incentive program II 2021 and issue of employee stock options (item 9)

Background and reasons

The Company has previously implemented a number of share-related incentive programs. In view of this, the board of directors proposes that the general meeting resolves to implement an additional long-term incentive program for senior executives and key employees within the Sinch group ("LTI II 2021"). The proposal to implement an incentive program has been put forward as the board of directors determines that it is important and in the interest of all shareholders to create even greater participation for current and future senior executives and key employees within the group with regards to the group's development. It is also important to be able to attract talent over time, and to encourage continued employment.

In the light of the above, the board of directors proposes that the general meeting resolves to implement the incentive program LTI II 2021 in accordance with items (a) and (b) below. The resolutions under item (a) and (b) below are proposed to be conditional upon each other and for that reason it is proposed that all resolutions are to be passed as one resolution. LTI II 2021 is proposed to include up to approximately 200 current and future senior executives and key employees within the Sinch group.

Item (a) - Proposal regarding the adoption of LTI II 2021

LTI II 2021 comprises one (1) series comprising employee stock options (with warrants as a hedging arrangement) that will be granted to employees within the Sinch group outside Sweden.

The board of directors proposes that the general meeting resolves to issue not more than 3,210,000 warrants in order to secure delivery of shares upon exercise of stock options to participants in LTI II 2021. The right to subscribe for the warrants shall vest in the wholly-owned subsidiary Sinch Holding AB (the "Subsidiary"), which company shall keep the warrants in order to ensure delivery of shares upon exercise of the employee stock options. Each warrant entitles the holder to subscribe for one (1) share in the Company. The warrants shall be issued without consideration to the Subsidiary.

Below is a description of the terms and conditions for the LTI II 2021.

Employee stock options (with warrants as hedging arrangement)

Each employee stock option entitles the employee to acquire one (1) share in the Company in accordance with the following terms and conditions:

- The employee stock options will be granted without consideration.
- Employee stock options may be granted to current and future employees of the Sinch group who work outside of Sweden.
- Each employee stock option entitles the holder to acquire one (1) share in the Company at an exercise price equal to the fair market value of the share, as determined by the closing price of the Company's share on Nasdaq Stockholm on the last trading day immediately preceding the date of grant of each stock option (however, the exercise price may not be less than the shares' quota value (currently SEK 0.01)).
- Although the allocation of employee stock options is differentiated between employees with reference to, inter alia, position, responsibility and working performance, as well as participation in previously established incentive programs of the Sinch group, there are no defined performance conditions that need to be fulfilled in order to be granted employee stock options. However, the employee stock options are subject to both performance and time based vesting conditions as set out below.

- Provided that the holder’s employment within the Sinch group has not been terminated as of a vesting date, and that the applicable Performance Condition (as defined below) has been satisfied as of the applicable vesting date, the employee stock options will vest on, and become exercisable soon after, (i) the first anniversary of the date of grant (the “Initial Vesting Date”) with respect to 20 per cent of the total number of stock options granted to a participant, and (ii) the last day of each of the following 16 calendar quarters (each a “Subsequent Vesting Date”), with respect to an additional 5 per cent per calendar quarter of the total number of stock options granted to a participant. The total vesting period, after which all granted stock options will have vested (as applicable), is five (5) years from the date of grant.
- In order for the stock options to vest, the Company’s consolidated adjusted EBITDA per share must, during a measurement period of between four (4) and twelve (12) calendar quarters as is further described below, have increased by an average of at least 10 per cent, where the change is measured as the relative change in adjusted EBITDA per share compared to the same quarter in the previous year (the “Performance Condition”). The Performance Condition will initially, in respect of the Initial Vesting Date, be measured over a period of four (4) calendar quarters, starting with the calendar quarter ongoing at the date of grant, after which the measurement period will gradually be increased by one (1) calendar quarter at each Subsequent Vesting Date. The measurement period will however never exceed twelve (12) calendar quarters and will always end on the last day of the calendar quarter immediately preceding the respective vesting date.
- If the applicable Performance Condition is not satisfied as of a vesting date, the stock options concerned will remain unvested and will immediately be deemed forfeited without consideration.
- Upon vesting, unless the employee’s employment within the Sinch group ends sooner, employee stock options remain exercisable for a period of six (6) years from the date of grant.
- The detailed terms and conditions for participants in LTI II 2021 may differ between countries due to differences in local legislation, however the terms and conditions shall not be more favorable for participants than what is set out in this resolution proposal.

Recalculation due to split, consolidation, new share issue etc.

The exercise price for the employee stock options, determined as set out above, shall be rounded to the nearest SEK 0.1 whereby SEK 0.05 shall be rounded upwards. The exercise price and the number of shares that each stock option entitles to subscription of shall be recalculated in the event of, inter alia, a share split, consolidation, rights issue of shares etc. in accordance with customary recalculation conditions.

Allocation of employee stock options and the right to receive employee stock options

The participants’ right to be granted employee stock options is differentiated between employees with reference to, inter alia, position, responsibility and working performance as well as participation in previously established incentive programs of the Sinch group, and the participants have for this reason been divided into two (2) different categories:

Category A – Members of the group management and selected key employees

Category B – Other personnel

Only current and future employees of the Sinch group outside Sweden shall have the right to receive employee stock. The following allocation principles apply to the grant of stock options within each of the categories set out above.

	Maximum number of stock options for each participant	Maximum number of stock options within the category
Category A – not more than 15 persons	200,000	1,200,000
Category B – not more than 185 persons	50,000	2,010,000

In the event that all stock options within category A are not granted after the initial notification period, such non-granted stock options may be offered to employees in category B, and in the event that all stock options within category B are not granted after the initial notification period, such non-granted stock options may be offered to employees in category A. The maximum number of stock options per individual within each category as set out above may however not be exceeded for any individual. Stock options may be granted on more than one occasion.

Neither the Company's board members, nor the founders, shall be eligible to participate in LTI II 2021.

Item (b) - Proposal regarding issue of warrants to be used for hedging arrangement

The board of directors proposes that the Company shall issue not more than 3,210,000 warrants, whereby the Company's share capital may be increased by not more than SEK 32,100 at full exercise of the warrants for subscription of shares, corresponding to approximately 0.44 per cent of the share capital in the Company as of the day of this proposal.

The right to subscribe for the warrants shall, with deviation from the shareholders' preferential rights, only vest in the Subsidiary, with the right and obligation to dispose of the warrants as further described above. Each warrant entitles the holder to subscribe for one (1) share in the Company during the period from and including 26 October 2022 up to and including 26 October 2028, at an exercise price equal to the shares' quota value (currently SEK 0.01). The warrants shall be issued to the Subsidiary without consideration.

In order to fulfil the commitments arising from LTI II 2021, the board of directors proposes that the general meeting authorizes that the Subsidiary may transfer warrants to a third party, or otherwise dispose over the warrants, in accordance with the above.

A detailed resolution proposal for the issue of warrants to be used as hedging arrangements, including complete terms and conditions for the warrants, is set out in Appendix A (including its sub-appendix).

Market value of the employee stock options

Based on a market value of the underlying share of SEK 183.25, the market value of the employee stock options is, in accordance with a preliminary valuation made by PwC, SEK 56.65, assuming an exercise price of SEK 183.25 per share. The Black & Scholes valuation model has been used for the preliminary valuation of the employee stock options, assuming a risk-free interest of -0.21 per cent and an estimated volatility during the term of the employee stock options of approximately 36 per cent.

Costs

The employee stock options are expected to incur accounting costs (accounted for in accordance with the accounting standard IFRS 2), as well as social security costs during the term of the stock options. According to IFRS 2, the employee stock option costs shall be recorded as a personnel expense in the income statement during the vesting period. The total costs for employee stock options, calculated in accordance with IFRS 2, are estimated to amount to approximately SEK 181.9 million during the term of the program (excluding social security costs). The estimated costs have been calculated based on, inter alia, the following assumptions: (i) a market price of the Company's share of SEK 183.25 at the time of grant, (ii) an estimated future volatility in respect of the Company's share during the term of the stock options of 36 per cent, (iii) that the maximum number of stock options encompassed by this resolution proposal are granted to participants and (iv) that all granted stock options will vest and be exercised. Social security costs, which are expected to arise primarily in connection to the exercise of stock options, are estimated to amount to approximately SEK 23.6 million during the term of the program, based on, inter alia, the assumptions set out in items (i)–(iv) above, as well as an average social security rate of 2.7 per cent and an annual increase in the market price of the Company's share of 20 per cent during the vesting period.

Other costs related to the LTI II 2021, including, inter alia, expenses related to fees to external advisors, external appraiser and administration of the incentive program, are estimated to amount to approximately SEK 2 million during the term of the program.

Based on the assumptions set out above, the total costs of the LTI II 2021 are estimated to approximately SEK 207.5 million in total during the term of the program. These costs shall be seen in relation to the total employee benefits expenses of the Sinch group, which during the financial year 2020 amounted to SEK 869,4 million.

Effect on important key ratios

If the LTI II 2021 had been implemented in 2020 and if the company had had costs in accordance with the example and based on the assumptions set out in the section "Costs" above, the adjusted EBITDA per share during the financial year 2020 would have decreased by SEK 0.13, from SEK 3.97 pro forma to SEK 3.84. The IFRS 2 costs will be accounted for during the vesting period, in accordance with the graded vesting schedule. The result of the graded vesting schedule is that 46 per cent (approximately SEK 95.8 million) of the total costs will be accounted for during the first year. The calculation has been based on adjusted EBITDA per share pro forma for 2020, assuming that (i) the acquired companies ACL Mobile Limited, SAP Digital Interconnect (SDI), Movile Internet Móvel S.A., Wavy Global Holdings BV (Wavy), as well as the following acquisitions which have been signed but not yet closed: Inteliquent, MessageMedia, PathWire and Messenger People, had been a part of Sinch during the entire year 2020 and (ii) including estimated positive synergies related to the acquisitions of SDI and Wavy.

If the LTI II 2021 had been implemented in 2020 and if the total costs of the entire program of approximately SEK 207.5 million would have been accounted for during the financial year 2020, and otherwise based on the same assumptions as set out above, the adjusted EBITDA per share during the financial year 2020 would have decreased by SEK 0.29, from SEK 3.97 pro forma to SEK 3.69.

Dilution

Upon exercise of all stock options issued within the frame of LTI II 2021, up to 3,210,000 shares (with reservation for any recalculation) may be issued, equivalent to a maximum dilution of approximately 0.44 per cent of the shares and votes of the Company (including shares that have been subscribed but not yet registered). Upon full exercise of the stock options, the Company's share capital will increase with SEK 32,100. Together with warrants and stock options which have been, or may be, transferred or granted to participants in LTI 2016, LTI 2018, LTI 2019, LTI 2020, LTI II 2020 and LTI 2021 and which have not yet been exercised for subscription or acquisition of shares as of the date of this resolution proposal, the maximum dilution will amount to approximately 3.95 per cent of the shares and votes of the Company (including shares that have been subscribed but not yet registered). The dilution calculations have been based on the maximum number of shares and votes which may be issued upon exercise of the warrants and stock options, divided by the total number of shares and votes in the Company after such share issues.

Motivation in respect of vesting and exercise conditions

According to recommendations laid down by the Swedish Corporate Governance Board (Sw. Kollegiet för svensk bolagsstyrning), the vesting period, or the period between the date of grant until the date when a warrant or stock option may be exercised, shall as a general rule not be shorter than three (3) years. As set out further above, vesting of the employee stock options will start on the first anniversary of the date of grant of the stock options to participants. On the third anniversary of the date of grant, up to 60 per cent of the employee stock options granted to a participant may have vested (provided that all applicable vesting conditions have then been fulfilled). Further, vested stock options become exercisable soon after they have vested. The reason for applying such terms, which are not in line with the recommendations of the Swedish Corporate Governance Board as set out above, is that the board of directors of the Company deem such terms to be in line with market practice for employee stock option programs in most of the countries where the intended participants in the LTI II 2021 are operative. It is therefore, in the opinion of the board of directors of the Company, in the best interest of the Company and its shareholders to apply such terms in order to fulfil the objectives of the LTI II 2021.

Preparation of the proposal

This proposal in respect of LTI II 2021 has been prepared by the Company's remuneration committee and board of directors in consultation with external advisers.

The reason for the deviation from the shareholders' preferential rights

The reason for the deviation from the shareholders' preferential rights is to implement LTI II 2021.

Authorization

It is proposed that the board of directors, or a person appointed by the board of directors, shall be authorized to make such minor adjustments to this resolution that may be required for the registration with the Swedish Companies Registration Office (Sw. Bolagsverket) and Euroclear Sweden AB, and that the board of directors shall have the right to undertake minor adjustments to the incentive program due to applicable foreign rules and laws.

The exercise price is SEK 136.10 per share (after recalculation due to the 2021 Share Split) subscribed by exercise of warrants of series 1–3. As regards series 4, employee stock options have been granted on three different occasions; in November 2020, December 2020 and February 2021. The dilution calculations above have been based on the maximum number of shares and votes which may be issued upon exercise of the warrants and stock options, divided by the total number of shares and votes in the Company after such issues (based on the total number of shares and votes outstanding as of the date of this resolution proposal, including shares that have been subscribed by exercise of warrants and employee stock options, but which, at the time of this resolution proposal, have not yet been registered or admitted to trading).
