

## **Resolution on authorization for the board of directors to resolve on new issues of shares**

---

The board of directors proposes that the meeting authorizes the board of directors to, on one or several occasions, until the next annual general meeting, resolve on new issues of shares to be paid in cash or in kind or otherwise on terms and conditions and that such new issue can be performed with deviation from the shareholders' preferential rights. The issues are to be performed on market conditions, taking into account any discount on market terms. The reason for the authorization and the reason for the possible deviation from the shareholders' preferential rights is to enable capital raisings for the acquisition of companies, or parts of companies, and for the operations of the Company. The board of directors is entitled to resolve on share issues causing an increase of the Company's share capital of at most 10 percent of the Company's registered share capital at the time the board of directors first utilizes the authorization.
